baby products

UNIBONO

1 50,000 Square Meter Factory in Thailand

50,000 square meter standardized factory in Thailand.

2 Fully Automated Mold and Injection Molding Workshop

In terms of production, our mold and injection molding workshop has achieved full automation, leading the industry in both product precision and manufacturing level.

3 Independent PCBA factory

Unibono possesses an independent PCBA factory, equipped with the capability for independent research and development as well as production.

4 CNAS Certificated Lab

Unibono owns a national-level CNAS-certified laboratory, which can issue national-level test certificates and can operate independently to undertake external testing needs.

5 Professional R&D Team

We have a strong R&D team with over a decade of technical accumulation and experience in product development, applying for 30-40 technology patents annually. The company has long been engaged in OEM/ODM projects, establishing long-term partnership relationships with hundreds of enterprises both domestically and internationally, and has built a vast network of retailers and agents worldwide.
